Education

2017- present	PhD candidate in Economics , Tilburg University, Tilburg Expected date of graduation: summer 2022
2014	M.Sc. in Economics and Social Sciences , Bocconi University, Milan
2011	B.Sc. in Management and Business Administration , Bocconi University, Milan

Research Interests

Empirical Industrial Organization, Economics of Innovation, Patents

Working Papers

“Single vs Multiple Standards: A Structural Analysis of the US Wireless Telecommunications Industry.”
Job market paper

Abstract: There has been a longstanding debate around whether a single standard is more beneficial than multiple competing standards, because of the ambiguous welfare implications from compatibility. This paper studies the effect of a single technology standard in the U.S. wireless telecommunications market from 2015 to 2018. I develop and estimate a structural model of consumer choice of wireless carriers and coverage investment to quantify the impact of a compatible network on market outcomes and welfare. Using counterfactual simulations, I find that compatibility is the welfare superior policy, regardless of the technology chosen. While the overall producer surplus is higher when moving to uniform wireless networks, whether consumers are better-off depends on the technology standard chosen. Under a Global System for Mobile Communications (GSM) regime, consumer surplus decreases by \$1.7 billion, coverage decreases by 20.01%, and prices increase for two wireless carriers. Under a Code division multiple access (CDMA) compatible network, consumer surplus increases by \$2.2 billion, coverage decreases by 9.78%, and prices fall for all four major carriers.

“Standards, IPR Policies, and Innovation.”

Academic Presentations

2021	CLEEN2021 Conference; Workshop on Standards and Patents; ENTER Jamboree (discussant); Universidad Carlos III de Madrid (scheduled); Tilburg University (SEG lunch; TILEC seminar; Internal workshop seminar) (scheduled);
2020	ENTER Jamboree (discussant); Second Annual Empirical Research Workshop and Conference on Standardization (all cancelled); Tilburg University (SEG lunch; TILEC Annual Retreat; Internal workshop seminar)
2019	Tilburg University (SEG lunch; TILEC seminar)
2018	Tilburg University (SEG lunch; TILEC seminar)

Summer School

June 2018	Dynamic Structural Econometrics Summer School (DGPE) University of Copenhagen , Copenhagen, Denmark
-----------	---

Teaching

Fall 2021	Econometrics for ECO (undergraduate), TA for Prof. T.J. Klein, Tilburg University
Fall 2020	Econometrics for ECO (undergraduate), TA for J.R. Campbell and Prof. T.J. Klein, Tilburg University
Spring 2020	Industrial Economics (undergraduate), TA for F. Schütt and E. Öztürk, Tilburg University Data communication for policy analysis (undergraduate), Lecturer, Tilburg University
Spring 2019	Industrial Economics (undergraduate), TA for F. Schütt and E. Öztürk, Tilburg University
Spring 2018	Industrial Economics (undergraduate), TA for F. Schütt and E. Freddi, Tilburg University
Fall 2017	Microeconomics: Theory and Analysis (undergraduate), TA for B. van Leeuwen and E. Freddi, Tilburg University

Work Experience

2016	Economist , Transcrime, Università Cattolica del Sacro Cuore, Milan, Italy • Analyst in European project “MORE”
2015	Intern , Chamber of Commerce, Milan, Italy • Economic Studies and Strategic Support department

Additional Information

Programming:	Python, Matlab, Stata, \LaTeX
Languages:	Italian (Native), English (Fluent), Spanish (Beginner)
Other Activities:	Member of the Graduate Students' Society at Tilburg University (2017-present) Junior member of TILEC at Tilburg University (2017- present) Economic PhDs representative (2018-2020)
